Ambassador Miyasaka visited the Antigua and Barbuda Coast Guard

Group photo: Ambassador Miyasaka, and officers from the Antigua and Barbuda Coast Guard

On October 13, 2025, Ambassador Miyasaka had the pleasure of visiting the Antigua and Barbuda Coast Guard. In August, the Government of Japan donated a state-of-the-art aquatic plant harvester to the Coast Guard to help address the ongoing challenge of sargassum seaweed proliferation along the nation's shores.

It was encouraging to see that the equipment was being well maintained, and we hope that it will continue to contribute to efforts to tackle the sargassum issue in Antigua and Barbuda.
