

Language Day

PROVIDENCE SECONDARY SCHOOL

On June 23, the Embassy of Japan participated in Language Day hosted by the Providence Secondary School. At the Japan booth, we introduced the Japanese writing system, which consists of three primary characters: Hiragana, Katakana, and Kanji. Students were also invited to experience shodō (Japanese calligraphy). This cultural engagement provided a valuable opportunity for participants to develop a deeper interest in Japanese culture and to appreciate the beauty of the Japanese language.

It was especially inspiring to see students approach their first calligraphy experience with great focus and then admire their finished work with genuine joy.

A fantastic cultural exchange!
