## Ambassador Miyasaka visited Antigua Public Utilities Authority (APUA)

From Left: Ambassador Miyasaka, CEO John Bradshaw

On September 25 2026, Ambassador Miyasaka met with CEO of the Antigua Public Utilities Authority (APUA) John Bradshaw. During the meeting, they engaged in active discussions on the potential for public-private partnerships with Japanese companies to assist in mitigating the issues related water scarcity as well as other challenges facing Antigua and Barbuda.

Additionally, they discussed WOTA Corps ongoing large scale demonstration project in the country focused on the deployment of “small – scale, decentralized water recycling systems” The discussion facilitated a fruitful exchange of views on Japan’s water management technologies and expertise.
